24 March 2020

## **Bus, Taxi and Minibus – Social Distancing & Non-Essential Travel**

In line with the recommendations from the Ministry of Health all non-essential travel should be suspended until the current situation has improved.

If you have to travel for essential reasons in a bus, taxi or minibus you must ensure that you maintain a clear space of at least 2 meters between you and the next nearest person.

If you can't maintain a 2-meter separation between you and other passengers then don't travel.

**Samuel Simpson**  
**Chief Executive Officer**
